Bimuni is a registered trademark of Clasado, Inc.

ORAL USE: Use one packet of Banatrol Plus two or three times a day or as recommended by a qualified healthcare specialist. Mix in water or fruit juices or moist foods such as applesauce, yogurt or pudding.

TUBE FEEDING: One pack of Banatrol Plus two or three times a day, every 6 to 8 hours of feeding. Mix with at least 120 mL of water and administer within 5-10 minutes of mixing with flushes directly down the feeding tube. Do not mix Banatrol Plus with tube feeding formula as it will thicken and potentially clog the feeding tube.
